A group of Model Rocketeers from Oshkosh has approached the club to launch rockets at Sod Farm. To accommodate this group, we have set up a special agreement with this group, collected a fee and have a special agreement in place with them to use the Sod Farm site. Review of the model rocket associate rules confirmed that there is no issue with flying near the airport due to the class of rockets that they are flying. Recommendation made to check with the owner of the sod farm for their approval (Tom will own). Recommendation made to give this association a probationary period before giving formal approval (Heath will discuss w/association). Recommendation made to include notification of their launch dates (Heath will discuss w/association)

Port-o-potty at Sod Farm will be moved to Quarry Field within the month.
